## **Advanced Management Techniques: Leadership & Supervisory Skills**

**Category:**

Management

The success of a group is largely dependent on the leader. Success is usually defined by tangible results, and the leader/manager is accountable to motivate the team to deliver the desired outcomes.

**Course Length:**

4 Full Days  
(32 hours)

Managers are not born proficient; there is a substantial amount of learning and experience that is needed to be successful. The goal of this training is to accelerate the learning curve.

**Materials:**

\$150 per participant

This course will not only show participants how to get better, but will also assess their current proficiency.

**Cancellation Policy:**

10 Business Days and  
Before Assessments

Advanced Management Techniques covers the key concepts of many of the leading management gurus, including Ken Blanchard, Stephen Covey, and John C Maxwell.

**Minimum Number of  
Students:**

4
